

Anthony Caruana

Freelance Journalist

With a background covering science, education, vocational training, project management and business analysis across several industries, Anthony brings to his writing a wealth of real-world experience.

Anthony's style is relaxed but engaging and he has a particular expertise in being able to express complex ideas to lay audiences.

His education and experience as a teacher and trainer has allowed him to develop skills in delivering what readers need in a clear and concise way.

With extensive experience in writing product reviews, Anthony is thorough and focuses on delivering what the publication's readership specifically wants, rather than generic spec sheet embellishment.

His background working with, managing and developing corporate and enterprise systems gives him a clear perspective when writing for C-Level executives as well as enterprise system managers.
